ABOUT JHARKHAND

The state of Jharkhand is situated in the Eastern part of India. It was carved out of the erstwhile state of Bihar on November 15, 2000. The state of Jharkhand shares its borders with the states of Bihar to the North, Uttar Pradesh to the North-West, Chhattisgarh to the West, Odisha to the South and West Bengal to the East. It has an area of 79,710 sq.km and its population is about 35 million. Ranchi is the capital city of Jharkhand and the second capital of the state is Dumka. Dhanbad, the coal capital of India, is the most populous city, while Jamshedpur is the biggest industrial city of the state. Bokaro is another industrial centre while Deoghar is the most prominent religious centre.

The state has reasons to be proud of its immense natural treasures in the form of vast mineral wealth and unmatched pristine beauty. About 30 percent of the total land mass is covered by thick forests with rare fauna and flora. Its topography is adorned with a number of cascading waterfalls. Betla National Park is home to tigers and elephants. Ancient religion and culture are evident from the Jain temples atop Parasnath Hill, the 17th century Bhagwan Jagannath Temple, a Hindu shrine and Jharkhand War Memorial dedicated to thousand unsung memories of the war heroes. Jharkhand is home to a very homogeneous group of creative and aesthetically endowed people with a great sense of pride in their art and culture, a different genre in its self. It is a paradox that the State of Jharkhand is rich but the inhabitants are not and have been deprived of the benefits of developments in higher education. With the realization that education is the most potent tool for empowerment and emancipation of individuals from deprivation, the Government of Jharkhand has accorded extremely high priority to higher education. Good, innovative and sound policies have been formulated to support inclusive sustainable development. Several new colleges and universities have been established particularly in the private sector. When Covid-19 began to disrupt the education sector, technology assisted education was adopted in the state and to keep pace with national developments. NEP is being implemented. A lot of emphasis is being put on blending indigenous knowledge of handlooms / handicrafts with fast emerging technologies to facilitate economic empowerment of people.

**USHA MARTIN
UNIVERSITY**

Inclusion, Innovation & Ethics

ABOUT USHA MARTIN UNIVERSITY

Usha Martin University (UMU) was established vide Usha Martin University, Jharkhand Act 2012. It is recognized by the University Grants Commission as a self-financing Private University empowered to award certificates, diplomas and degrees vide letter no. F5-3/2017 (CPP-UPU) dated 6th April, 2017. The University has also been granted section 2F approval by the UGC. Programmes requiring regulatory approvals are also recognized by regulating bodies such as Pharmacy Council of India,

Bar Council of India, All India Council of Technical Education, State Nursing Council, Jharkhand (INC approval is in process). The University is located at village Narayansoso, Ranchi-Purulia highway, Angara Block office, Ranchi. It is located in newly constructed campus spread over 32 acres.

To carry out its mandate of providing inclusive quality higher education in different fields for sustainable development of the society, while being in conformity with the priorities of the Ministry of Education, Government of Jharkhand, the University offers a wide range of professional programmes at UG and PG levels. To enhance opportunities for employment, some of these programmes are enriched with value added and skill based courses. In addition, Ph. D programmes in Agriculture, Chemistry, Commerce, Computer Science, Education, English, Law, Management, Mathematics, Pharmacy and Physics are also on offer. The University is committed to follow UGC guidelines and has framed its own research policy in conformity with these.

A University is a learning organization with 3 dimensional offerings: Research, Teaching-learning and Extension. To encourage social re-engineering, the University nurtures local talent. While appointing faculty, emphasis is placed on their domain knowledge, research capabilities and intellectual caliber. As of now, 50% of faculty at the University has PhD qualification and a few more are to be awarded soon. At present, 121 (PhD research scholars are enrolled in the University. They are dedicated to independent discipline based as well as inter-disciplinary research. The faculty is also engaged in guiding research and they are incentivized for publishing research papers preferably in Scopus, CSI, UGC journals and international conferences.

The University provides rich learning experience to its learners where issues are discussed in a fair and frank environment with the faculty as well as through interaction with the experts from the corporate world. The University puts special emphasis on technology supported learning environment to foster interactivity and learner engagement.

The University provides scholarships to the students from the state as well as to meritorious students from outside so as to offer cost- effective quality education. The University has also arranged student loan facility with ICICI bank. The UMU has entered into MoU with Finance Edge for providing interest free EMI on semester basis. An expected spin-off effect of this action is to discourage brain-drain as an estimated 12,000 students go out of the state every year to pursue higher education.

VISION

To provide outcome based relevant education, nurture local talent, support creation of excellence in teaching, learning and research, produce high quality innovative graduates and contribute toward sustainable development of the state.

MISSION

The University shall strive to promote innovative strategies for seamless dissemination and creation of knowledge using latest techniques, available media and technologies, arrange an interaction with experts from corporates so that its graduates acquire skills to get suitable employment and contribute with a sense of service to national and global knowledge pool.

CORE VALUES

- Transparency, Honesty, Integrity, Moral Values and Ethics
- Competencies Compatible with Knowledge Society
- Quest for Excellence through innovations in teaching-learning
- Inclusive Education at Affordable Cost
- Development of State, Region and Country

OBJECTIVES

- Create leaders and entrepreneurs of tomorrow with clear vision and values
- Ensure relevance of curriculum for the industry and the world of work
- Continuously develop intellectual capital in a collaborative learning environment
- Groom students as critical thinking, well rounded individuals
- Provide diversified exposure through educational (field) visits, internships, projects and innovative assignments

Facilities and Infrastructure

University of Madras is located in lush and green surroundings. It presents a judicious mix of ancient values and modern teaching-learning ecosystem. UMU has created classrooms well equipped with audio-visual systems, modern teaching aids, WI-FI and very comfortable seating arrangements. The Laboratories and Workshops are well equipped with all equipment required to carry out experiments. The campus has well laid out open spaces, conducive to easy movement and access to various facilities. Such an environment is extremely enriching for participative learning. The campus is also disabled-friendly.

The Library has a rich collection of textbooks as well as reference books (both in print and electronic formats), journals, periodicals, magazines, etc. to cater to knowledge needs of students, research scholars as well as teachers. The University has created a vast collection of e-resources comprising eBooks and online journals in collaboration with Professional bodies such as Del Net and Infilibnet.

In keeping with the requirements of its various professional programmes, the University has created state of the art laboratories. For computer science programmes, well-equipped systems and required software have been made available. To support the engineering programmes, well designed workshops in all disciplines of engineering and laboratories for basic sciences have been developed. Likewise, programmes in Pharmacy, Nursing, Physiotherapy and allied sciences and Agriculture have well equipped laboratories in accordance with the learner strength and the requirements of their respective regulatory councils.

It is said that a sound mind resides in a sound body. Following this dictum and to encourage all round development of learners, a well-endowed sports infrastructure for outdoor as well as indoor sports has been created. It is hoped that UMU shall soon produce sports persons of repute nationally and internationally. Separate common rooms for girls and boys have been provided. Separate hostels for girls and boys are available at affordable cost. Facilities are also being created for central mess and another library close to the hostels for consultation after hours.

The University has arranged bus services for students as well as staff to commute comfortably from various parts of the city. This service is available over a 35 km radius around the city at a subsidized fee for the students whereas it is free for University Staff. All buses are well equipped with safety measures. The cafeteria provides clean and hygienic environment and serves quality food to all at affordable prices.

Ragging, physical or mental, is taken as a cognizable offence and strongly discouraged at the campus. All students are advised not to indulge in this undesirable act. Moreover, as responsible individuals, all students are expected to contribute to eradication of this evil. If any student is reported to be involved in committing such an offence, he/ she is handled as per anti-ragging policy of the University formulated following UGC guidelines.

The UMU provides congenial environment for personality development and growth to aim for harmony and tolerance towards all living beings.

The Administrative cum Academic Building is insured including coverage for fire hazards and logistics.

The University also provides primary healthcare services on the campus. Physiotherapy services and legal aid services are provided to villagers in surroundings at a nominal cost. These have become very popular.

Academics & Technology Supported Learning

hough it is a young institution; UMU has emerged as a center of credible education capable of fulfilling the rising aspirations of the youth in the region. Annual growth rate of more than 30% stands testimony to this. Deeply conscious of its role in building responsible human capital, Usha Martin University provides quality higher education in emerging and required fields of national importance. It helps to develop employable professionals and entrepreneurs.

In a dynamically changing higher education scenario, facilitated by NEP-2020, Usha Martin University seeks to remain continually relevant by adopting latest pedagogies and technology supported methods of educational delivery. In a Wi-Fi enabled campus, learners have access to multimedia resources and on-line materials for an all-round exposure to academics and the world of work. The University has also developed its own learning management system, 'UMU-learn', to facilitate learner interactivity and engagement beyond the campus.

A characteristic feature of the Usha Martin University which distinguishes it from other higher education institutions in the region is that it focuses on the quality of faculty across all its offerings by engaging academics with the best academic and research credentials. The UMU faculty is actively engaged in research and application of innovative practices in Teaching-Learning. In the year 22-23, 326 research papers were published by the faculty in SCUPUS and such other highly rated journals. In addition 10 patents were also granted to UMU in this year.

Usha Martin University is well equipped with the required laboratories, workshops and IT infrastructure facilities. The University is also conducting extension programmes in different areas, besides undertaking its community service responsibilities. It has been conferred seed money by Unnat Bharat Abhiyan for extension services in neighboring five villages adopted by the University.

Usha Martin University's students also benefit from customized training programmes and placement services whereby the University prepares its students to face the demanding and competitive job market. Customised ERP system has also been implemented to automate learner management and administration

Chancellor's Message

My dear young friends,

You are welcome to the University chosen by you to prepare for the success in your future. I am sure you will find here what you are looking for.

I see in you my own self when I was your age – full of energy and excited to gain knowledge. Since then, I have excelled in every endeavour I undertook. I have many suggestions for young people like you from the lessons learnt in my life. Many of these suggestions have helped me to score full marks in academics, working career and in my personal life. So, I thought I should share some of those suggestions with you. It is your choice to reject them. It is singularly important to be passionate about what you want to do. If you think you are not happy with what you are doing, it is never too late to change into something you like to do. Being passionate is good, but it is not enough to make it to the finish line. It should be combined with long term vision. The vision should be split into clear doable and achievable smaller goals.

I would also suggest that you should understand your interests and strengths, and learn new skills, attend short term courses, and do some part-time work in addition to your studies. They will come in handy at times.

And finally, you should set targets for yourself every six months. This could be learning a new skill, completing a project, writing an essay, reading a book or developing a new interest.

Don't forget that you are the CEO of the company called your life. You are responsible for making it a successful venture.

Enjoy your time in the University. My best wishes are with you.

Prabhat Kumar
(Retd. IAS, Former Cabinet Secretary and First Governor of Jharkhand)
Chancellor

Pro Chancellor's Message

University is a learning organization with focus on skilling its learners through Teaching and Research and socialization via Extension. I am happy to note that UMU is emerging as a Centre of credible education capable of reversing the brain-drain by meeting the growing aspirants of the youth. The University fraternity is deeply conscious of its role in building responsible human capital. I am happy to share that UMU is providing quality higher education in emerging fields of national importance. It has received recognition of various national regulators of higher education.

The University is committed to remain relevant in future and is seeking NAAC accreditation. Moreover, it is adopting latest pedagogies with special reference to National Education Policy 2020 (NEP 2020). This has brought huge responsibility on the University and as a forward-looking institution, our focus is on facilitating interaction with students even beyond the four walls of the campus. Towards this end, web-based lectures are conducted in different fields of study. I feel privileged that the university has been practicing forward looking measures of quality such as self-appraisal of all teachers since inception and of administrative staff from AY 2022-23. Participation in ABC and NAD add value to its offerings.

The University has been offering mostly professional programmes. Starting with Computer education, Management and Engineering Diploma programmes, it added Agriculture, BTech, Pharmacy (BSc and Diploma), Nursing (BSc and GNM), Journalism and Media Studies, Physiotherapy, Medical Lab Technologies, OTT, Imaging, etc. With well-equipped laboratories and workshops, it is satisfying to note that focus is on quality of academic transactions.

I am aware that the University has been conducting awareness programmes among the rural people in villages surrounding it. Such extension activities in Health Science, Agriculture, Law and Computers would enable the learners to get an exposure to rural settings and add to their skills in getting jobs of their choice and change towards life of their prescription. I wish that such efforts are further intensified.

Prof. S. C. Garg
Pro Chancellor

Vice-Chancellor's Message

would like to offer my best wishes and congratulations to you for embarking upon an exciting and rewarding journey towards a productive life, with the Usha Martin University. Selecting a university and entrusting it with the responsibility of shaping your future is a responsible choice and I assure you that you have made a wise selection.

A University education involves much more than preparing you for a good career and gainful employment; it is about preparation for life in an increasingly complex world. UMU seeks to contribute to your development as productive and contributing citizens, as accountable and valuable members of the community and family and as responsible adults claiming their rightful place in this competitive world. I hope that during your time here, you would imbibe values of inclusive development, transparency and ethics that UMU cherishes as its core values, besides acquiring the life skills and competencies in your respective disciplines that the university seeks to impart through innovative and interactive pedagogy.

We live in very dynamic times today and while these are times of disruptive innovations, these are also times of great opportunity for innovative applications, creative solutions and openings in different career avenues. If the university is able to create in you a passion for creative problem solving and participative, responsive living, it would be going a long way in preparing you for life in the 21st century. Let us endeavor to achieve this together, as joint stakeholders in your progress.

Prof. Madhulika Kaushik
Vice-Chancellor

Faculty of Computing & Information Technology

Computer Science has become an integral part of the modern society with the proliferation of information technology. The ever-increasing demand of sophisticated computation has created the need for fast changing computer devices, commensurate with the requirements of software and networking. Faculty of Computing and Information Technology at Usha Martin University offers academically sound programmes at the UG, PG and Ph.D. levels with its state-of-the-art facilities and value-added teaching-learning methodology. Our curriculum is a blend of theoretical and practical courses with focus on growing demands and the changing trends of IT industry. Adequate exposure is given to areas such as Machine Learning, Data Science and IoT so that our graduates acquire competency to contribute to the world of work. These programmes will help the students to get suitable jobs in diversified fields.

S. NO.	PROGRAMME	DURATION	ELIGIBILITY	MODE
1	Bachelor of Computer Applications (B.C.A)	3 Years	12th with Mathematics	Semester

3	Master of Computer Application (M.C.A)	2 Years	Graduation in any discipline with Mathematics as one subject	Semester

Faculty of Engineering & Applied Sciences

Engineering has played a vital role in shaping the world with its pragmatic approach. Now the face of engineering education has completely changed with emergence of new avenues and developments in technology. In fact, the unique advances in engineering have increased the demand of engineers in the corporate world. Usha Martin University brings a wide range of engineering programmes at Diploma and undergraduate levels (B.Tech) with emphasis on innovation, relevance and cost-effectiveness. Our Diploma in Engineering programmes are AICTE approved.

B.Sc. Forensic Sciences is a three-year undergraduate programme and B.Sc. Criminology is a three-years degree and four-year Honors program that involves the use of scientific knowledge for the investigation of various kinds of crimes and lead to a good career.

B.Sc. Mathematics and Computing is a 3 years degree and 4 year Honours program. This program is to provide students with a strong foundation in both Mathematics and Computer Science. This interdisciplinary program is designed to equip students with the knowledge and skills necessary to address complex problems that involve mathematical modeling, computation, and data analysis.

Lateral Entry for Diploma holders is available for B.Tech Programme. Likewise Lateral Entry in Diploma Programme for XII-passed candidates is also available except in Mining.

S. NO.	PROGRAMME	DURATION	ELIGIBILITY	MODE

Faculty of Health & Allied Sciences

Pharmacy, Physiotherapy, Nursing and medical laboratory technology are among the fastest growing disciplines that can provide bright and satisfying careers. Depending on their choice of programme, students will have to work with health care specialists and medicine manufacturers in order to cater to the needs of the society.

Physiotherapy is a healthcare profession that is primarily concerned with remediation of impairments and disabilities and the promotion of mobility, functional ability, quality of life and movement potential through examination, evaluation, diagnosis and physical intervention. The pharmacist bridges the gap between physician, medicine manufacturer and patients, while performing their job efficiently, while the Paramedics and medical lab technologists form a vital link in the delivery chain of health services. Nurses are in front line role and they bridge the gap between behavioral health care and physical health care for providers looking to better integrate the two.

The University began to offer BPT in 2019 and BMLT in 2020, B. Pharm course and D. Pharm course in 2020, B.Sc. and Nursing in 2021. B.Sc. Operation Theatre Technology, B.Sc. Medical Radiology & Imaging Technology are also being offered from 2023. The vision of the programmes are to create high levels of competency in Pharmacists, Physiotherapists and Para Medical professionals to respond effectively and provide best available services to meet the needs of those requiring health care.

The department Physiotherapy & Paramedical Sciences offers 4 ½ year undergraduate degree program in Physiotherapy, entitled as Bachelor in Physiotherapy (BPT) on regular basis. The department also started offering 3 ½ year UG degree course in Bachelor in Medical lab technologies (BMLT), and 4 years UG degree course in B.Sc. Radiology Technology (BMRIT).

The University aims to develop high levels of academic and clinical competence and to produce professionally competent physiotherapists and paramedics who can respond effectively to the changing environment.

B.Sc. Nursing is dedicated to the mission of promoting quality healthcare education and transforming young students into professionals who can contribute to the rapidly growing health care sector in India.

We understand that learning is most effective when individual learner's needs are considered and active learner participation is facilitated. Hence, we work towards creating a conducive environment which encourages these traits. It's hope that the programmes offered by the Faculty of Health and Allied Sciences will bring several jobs for our graduates.

Lateral Entry for Diploma holders is available in the Degree Programme.

S. NO.	PROGRAMME	DURATION	ELIGIBILITY	MODE
1	Bachelor in Physiotherapy (BPT)	4.5 Years (4 Years Academics & 6 Months Internship)	10 +2 with 50% marks in PCB. 5% relaxation for SC/S T candidates	Semester
2	Bachelor in Medical lab technology (BMLT)	3.5 Years (3 Years Academics & 6 Months Internship)	10 +2 with 50 % marks in PCB. 5% relaxation for SC/ST candidates	Semester
3	Bachelor of Pharmacy	4 Years	10+2 Science with PCB & PCM.	Semester
4	Diploma in Pharmacy	2 Years	10+2 Science with PCB & PCM. 5% relaxation for SC/ST candidates	Yearly

Faculty of Agriculture

Welcome to the Faculty of Agriculture at Usha Martin University, Ranchi, Jharkhand! The University is adobe of innovation and wisdom has attained the hallowed height in the sphere of higher education and created a place of eminence as the best University in Ranchi. Since inception the University is doing sublime work in the sphere of higher education and has attracted brilliant brains from across the country who created their own space at international level.

The Faculty of Agriculture at Usha Martin University is committed to impart high-quality and holistic education, promoting cutting-edge agricultural research, and take the innovation to the farming community. Our objective is to produce Agricultural Scientists, Agripreneurs, Agribusiness Managers, and Social Entrepreneurs who could serve the farming community with dedication and zeal.

Our Agricultural Program is judicious blend of practical and theoretical pedagogy that provides solid academic base, blend of the latest industry and best business practices, and focused on creating a link between theory and practice that supports advanced career in the sphere of agriculture and its allied areas.

At the Faculty of Agriculture students get a conducive teaching-learning environment with state-of-the-art infrastructure and facilities that enhances their professional competencies, research competencies, critical thinking and problem solving skills and enable students to succeed in a highly competitive global environment.

1	B.Sc (Hons.) Agriculture	4 Years	12th with Science	Semester

Faculty of Journalism and Mass Communication

Journalism and Mass Communication are related to media and public information. Media is a highly esteemed and rewarding profession where one needs to act and represent on behalf of society. The role of media is significant as one of the pillars of a democratic society. The BAJMC program at Usha Martin University is a testament to its commitment to grooming the next generation of proficient media professionals. The programme is structured to address the diverse facets of Journalism and Mass Communication, ranging from print to digital media, broadcasting, advertising, public relations, and beyond. The state-of-the-art media lab, boasting the latest cutting-edge technologies, is a pivotal component that enhances the overall value of the Bachelor's programme for students. Integrating advanced equipment and software within the lab fosters an immersive learning experience. The program's commitment to staying abreast of industry trends is evident through the inclusion of constant workshops and frequent interactions with seasoned industry experts. These opportunities go beyond the traditional classroom setting. The students are exposed to networking and mentorship, laying the groundwork for potential collaboration and career pathways. The graduates meet the industries' demands and contribute positively to society through responsible and informed journalism.

The faculty also offers Diploma in Creative Writing for Print and Broadcast Media. This programme offers aspiring writers a comprehensive platform to develop their skills in crafting compelling narratives across various media platforms. Students delve into the intricacies of print journalism, broadcast media, and online content creation through a blend of theoretical knowledge and practical application.

S. NO.	PROGRAMME	DURATION	ELIGIBILITY	MODE

Faculty of Legal Studies

The legal profession has always been accorded high esteem due to its unique role and responsibilities towards the society. Recognizing this, UMU established the Faculty of Legal Studies to impart quality legal education in the state relevant to the needs of the emerging world order. The law programmes use technology supported interactive pedagogy to equip its graduates with legal skills and scholarship with particular focus on practical aspects of law. To impart real life experiences, the University invites legal luminaries from the region to help learners see how the profession is practiced.

The University offers five-year integrated BBA-LLB programme, in addition to stand alone 1 and 2 year LLM and PhD. These programmes would provide the youth enough avenues for their professional development and enable them make a career with finest prospects based on ethics and values.

S. NO.	PROGRAMME	DURATION	ELIGIBILITY	MODE
1	BBA LLB (Integrated)	5 Years	12th	Semester
2	LLM	1 Year Specialization in Business Law, IPR and Constitutional and Administrative Law	LL.B.	Semester

Research Cell

Welcome to Usha Martin University, where academic excellence meets cutting-edge research!

UMU stands as a beacon of academic excellence and research innovation. The Ph.D. programmes offered reflect a commitment to pushing the boundaries of knowledge, fostering a dynamic research culture, and contributing to sustainable development. By striking a balance between technological innovation and human-centric approaches, UMU continues to make significant strides toward inclusive and transformative development in underprivileged and remote communities.

Our Research Cell invites passionate and innovative minds across India to embark on a transformative journey through our distinguished Ph.D. programmes.

Ph.D. Programmes Offered:

UMU takes pride in presenting an extensive array of Ph.D. programmes, meticulously designed to cater to the diverse academic and research interests. These programmes are aligned with the provisions and regulations set forth by the UGC (Minimum Standards and Procedure for Award of Ph.D. Degrees Regulation) and UMU's Ph.D. Degree Regulations. Aspiring scholars can choose from the following disciplines:

- | | |
|----------------------------|--------------------------|
| 1. PhD in Computer Science | 6. PhD in Pharmacy |
| 2. PhD in Law | 7. PhD in Journalism and |
| 3. PhD in Management | Mass Communication |
| 4. PhD in Commerce | 8. PhD in Mathematics |
| 5. PhD in Education | 9. PhD in English |

Research Culture at UMU:

The Research Cell at UMU plays a pivotal role in cultivating a vibrant research culture. Scholars are encouraged to embark on a journey of knowledge creation and innovation, contributing significantly to their respective fields. The university provides state-of-the-art research facilities, access to extensive libraries, and collaboration opportunities with eminent researchers.

Programme Eligibility / Pre-requisites:

Masters Degree from a recognized University or Equivalent Institution in the relevant subject with minimum 55% marks or an equivalent grade. For candidates belonging to SC/ST/OBC (Non-Creamy layer)/ Differently-Abled and such other categories, relaxation as per the decision of the UGC & Govt. of India will be accorded.

How to Apply?

You can apply for admission both online as well as offline in response to and in accordance with the PhD advertisement of the University.

Entrance Test

UMU conducts PhD entrance test followed by an interview of the successful candidates. Candidates who have already cleared UGC (JRF) Examinations/ NET/ SET/ SLET or have M. Phil degree can directly appear for interview.

Mode of Entrance Examination: Online

Pre-PhD Course work

The Pre-PhD coursework will span over two semester and will comprise five compulsory papers.

Name of Paper	Theory	Practical	internal Assesment (Assignments, Attendance & Seminar	Max Marks	Credit
Paper-I			40		
Research Methodology	60	-		100	4
Paper-II					
Computers in Research	50	30	20	100	4

Research Training	(Presentation)	-	Review Paper	100	4

Join us in the pursuit of knowledge, where academic rigor meets innovation, and together, let's shape a brighter and more sustainable future. Apply now and become a catalyst for change through research excellence at Usha Martin University!

Industrial Collaboration

Quality education cannot be achieved without practical training. The importance of vigorous training under real life settings can be well understood in the context of a competitive environment where every enterprise is result oriented and demands output. In order to meet expectations and demands of the dynamic corporate world, Usha Martin University works in collaboration with industry and other employer organizations while seeking to bridge the gap between students and job market through involvement of our corporate network in both curriculum review and competency building through internships.

The linkage with different sectors of the corporate world enables UMU to produce efficient and job ready professionals for the market. The top companies are always craving for efficient professionals with a combination of sound conceptual knowledge and exposure to the professional practices so that industrial collaboration helps Usha Martin University to fulfil the requirement of the market with its graduates and their employable competencies.

The University provides exposure to the world of work and experiential knowledge to its students by organizing industrial visits, internship programmes and mini projects. Experts from the industry and other employer organizations are regularly invited to interact with the students.

The University is not only building and maintaining linkages with various enterprises but also providing a unique platform to check and improve the training curriculum of various fields of studies and thereby set new standards of quality.

The main objectives of Usha Martin University's industrial collaboration are to:

- Establish linkages between industries/trade/academic faculties and students
- Enable exchange of information between academicians/ universities and industries
- Review from time to time the curricula under various fields to identify the emerging requirements and enable students to face challenges in a complex work environment
- Strengthen campus placement efforts.

The various organizations/industries that are mobilized for achieving these objectives efficiently include:

- Business enterprises, including companies, duly registered under the Companies Act 1956 from various sectors of business
- Organizations established under their own statute like Banks
- Industry associations
- NGOs like trusts and societies.
- International Organizations.

The University has been able to achieve excellent placement rates for its graduating batches so far.

Admission Procedure

Sha Martin University provides a user-friendly mode of admission to its various programmes based on the prescribed eligibility. The applicants can download the admission form for their selected programme from the university website and submit the duly filled forms to the University at suggested address. Alternatively, applicants can apply online and also pay fee online.

Steps in the admission process:

- Go through www.umu.ac.in to select the programme of your interest. (In the event of requiring any clarification you should contact the Marketing department at the numbers given on the last page of this prospectus. For any academic details of your programme, you can also contact the HOD concerned. Their contact details are available on the University Website).
- After selecting the programme, fill the admission form and mail it to the addresses of City offices mentioned on the last page.
- Attach all the required documents, including self-attested mark sheets, past academic certificates, birth proof, and residence proof as required.

You also need to submit five passport size photographs along with demand draft of first semester fee in favor of the University.

Admission to MBA and Engineering programmes is through entrance tests conducted by the university and followed by interviews, while admission to B. Pharma is based on merit in the qualifying examination (+2). On the other hand, 50% admissions to BSc (Nursing) and GNM shall be through Jharkhand Combined Competitive Board.

Fee Refund Policy and Withdrawal of Admission

In the unlikely event of withdrawal of admission by a student, the University refunds the fees in accordance with its refund policy shown in the table below. All students are advised to observe this strictly and the refund shall be made in strict accordance only. Under normal circumstances, the last date of admissions is 31st July for every academic year.

BY 31st August	By 30th September	Beyond 30th September
Reimbursement after deduction of Rs. 1000 from the amount paid	Deduction of 50% fee paid	No Reimbursement

In case of change in admission schedule by the statutory body, the dates of reimbursement shall change accordingly.

Campus Activities

The University in its campus has created facilities for indoor as well outdoor sports. . Besides a state of the art Cricket stadium developed in collaboration with JSCA, we have playgrounds for Volleyball, Football, Badminton and the like. Indoor games such as Table Tennis and various Board games are also available. Two units of NSS have been active since 2022. We intend to follow this by raising NCC units.

There are separate common rooms for boys and girls.

Cultural activities like student fest and academic as well as sports competitions are organized every year. Students are trained to participate in various inter-college and inter-university competitions under the guidance the University Sports Instructor.

Our Recruiters

We consistently try to bridge the gap between academi and the industry by developing a symbiotic relationship in order to provide our students a better scope for their career growth as well as making them an asset for the society. Our students of previous batches have been selected in many companies of repute which include but are not limited to the following:

Career Advisory and Placement Cell

Just as taste of pudding is in eating, the quality of education manifests in the form of outcomes like placements consistent with the aspirations of learners at the end of a programme. To facilitate this, the University has established Career Advisory and Placement Cell that works under the guidance of the Registrar. The activities of the cell are managed by the Training and Placement Officer who tries to match the needs of the corporate world and the career aspirations of our students in consultation with the placement committee comprising senior faculty of the University. It is an institutionalized system of advisory services designed to assist students in taking decisions on career and educational guidance at different levels of education.

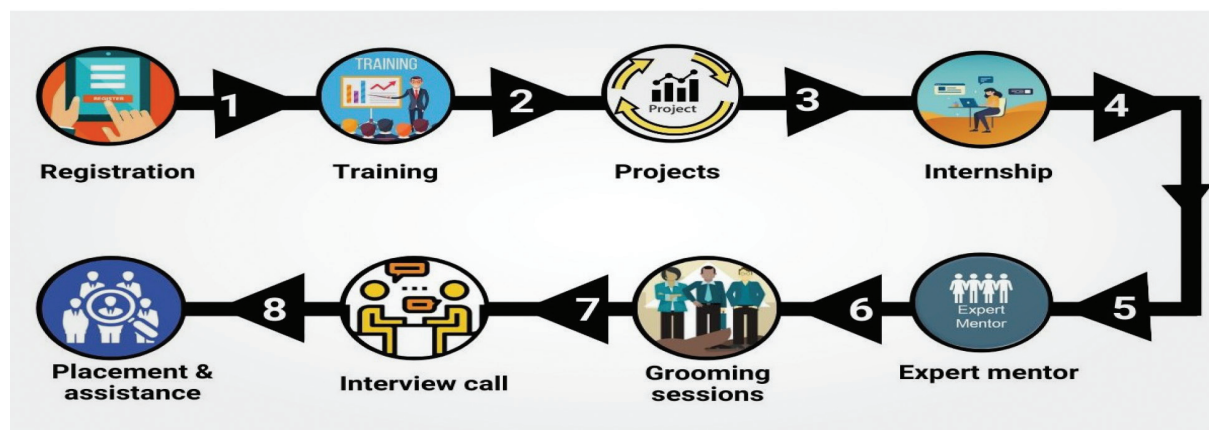

Under this cell, the University provides required training and guidance to its students on

- How will they be assessed by employers?
- How should they prepare as per their career goals?
- Career counseling, individual or group counseling focused on the choice of the programme so that they can easily achieve their career goals.

The Career Advisory and Placement Cell of Usha Martin University helps students to

- Prepare CVs, Job application forms, Covering letters and other Corporate / University documents.
- Successfully compete and go through the interviews at different levels.
- Explore and find new jobs that can offer best opportunities.
- Participate in “practice interviews”, subsequent feedback and analysis.
- Train on behavior, stress management, non verbal and verbal communication.
- Formulate career plans by gaining exposure to the evolving job scenario and career paths.

So far, the placement record of the University have been quite satisfying due to the sincere efforts and hard work put in by the students, faculty and the Placement Cell.

Scholarships Offered by UMU

The University encourages participation of meritorious students by offering scholarships in the form of fee concession as per the following scheme.. The Scholarships are offered in the form of fee rebates as follows:

- 100% for all students enrolled in any programme * and having more than 95% or more marks in their qualifying examination.
- 50% for all students enrolled in any programme and having marks in the range 90%-95% in their qualifying examination.
- All women students enrolled in any programme and having more than 80% marks in their qualifying examination are entitled to get 20% scholarship.

Provision for Wards/Dependents of Army Personnel

- Wards/Dependents of Army personnel will get special scholarship boys will be entitled to 20% of semester fees as scholarship while girls will be entitled to 30% of semester fees.

Domicile Based

- 10% for students having domicile of Jharkhand and enrolled in any programme. However, those getting merit scholarship will not be eligible for domicile-based scholarship

*Note:

1. No scholarship benefit will apply to candidates applying for the Nursing, Pharmacy and LLM programmes.
2. The benefit of 50% and 100% rebate in tuition fee for eligible candidates will apply only for the first year of the concerned programme. The benefit from 2nd year onwards will revert to 20% rebate on tuition fees for all these candidates.

The benefit of scholarship will cease to operate if a beneficiary student is awarded disciplinary action against him at UMU or fails in any exam in a semester.
